

My name is Yohanna Rezene Araya, 19 years old Eritrean, born and raised in Asmara.

I am writing to request any possible financial support that required raising fund for the vitally needed medical treatment in a Belgian Hospital (Cliniques Universitaires Saint - Luc, UCL Bruxelles).

Throughout my educational years, I have always been a top student. It is my desire to become an Engineer someday, and have been preparing to achieve this goal. Sadly I was diagnosed with Leukemia, just at the inception of my second year College study. Despite my all eagerness to continue my studies, I have been forced to halt it. Without your support, I would be unable to realize my dream and get rid off this merciless disease.

I have been accepted on the aforementioned hospital for treatment. However, the total cost for the treatment demanded by is €35,000.00, an amount which is beyond me or my family can afford. As my life is endangered the only remaining option I possess is to ask for your generosity.

With this regard, the Eritrean community in Belgium has taken an initiative and opened a blocked bank account on my name for this purpose. Please see below details related information. I have also enclosed a letter from the hospital indicating the cost of the treatment.

Name and address: Yohanna Rezene Araya
AV. General Eisenhower 72
1030 Bruxelles, Belgium

Bank Account: BE08 0882 6470 5113
BIC Code: GKCCBEBB
