I. Introduction

Eritrea: Basic Education Statistics is the official, annual education publication of the Ministry of Education (MoE) dealing with basic descriptive statistics. It is the 12th report produced by the Department of Research and Human Resource Development in terms of organization of schools in the new six administrative Zobas, the Zobas. The sources of information for this publication are annual school censuses carried out by Zobas education offices through standard questionnaires from each school.

This publication covers data from Early Childhood Education (ECD), General Education (Elementary, Middle and Secondary levels), Adult Education Centres, and Technical Schools and non-tertiary institutions. The main purpose of the 2007/08 publication is to provide relevant, reliable and up-to-date information on education. It will also serve as a source of useful information for various stakeholders and researchers within and outside the education sector.

The data presented in this publication is comprehensive and detailed, which is believed to be useful for planning, decision making and even for conducting researches. For further inclusion and refinement to be made, the Ministry of Education is working to improve the quality and coverage of the education statistics. Moreover, continuous efforts will be made to produce better and timely information.

This publication would not have been possible without the contribution of the six Zoba education offices and other educational institutions. We remain deeply indebted to all for the efforts made in order to successfully finalize this publication.

We truly appreciate UNICEF: Eritrea office for its support in financing the printing of such publications. We also extend our appreciation to all those who provide us feedback and other relevant input.

Please feel free to give us your serviceable feedback regarding the content and form of this education abstract so that we will be able to attend to your requirements.

II. Data channels

The information in this statistical abstract is gathered mainly from routine Questionnaire items 7, 8 and 9. The first two are closed questionnaires, in which schools and institutions send back the *November data* on pre-primary, primary, secondary, special education, technical schools and ATTI to the MoE. The data include adult literacy and evening classes. The expected time of completion of these questionnaires is in April. In every academic year normally 100% of the questionnaires are collected.

Questionnaire item 9 covers a school's physical, financial and internal efficiency particulars. The expected time of completion of this Questionnaire is in July, after the end of each academic year in the country.

We assure users of this abstract that all necessary measure has been taken to make the information provided in this issue valuable and reliable.

Data in all tables, unless otherwise stated, refer to the 2007/08 academic year. Table numbers are sub-grouped under corresponding sections. Charts are sequenced in a continuous ascending order all through the abstract.

III. Important notes

1. Population

For the purpose of this current issue, the mid-variant of the 2007 population estimate, 3,735,560 is used. This population estimate is used to split into single age population (MoE) in deriving essential educational indicators.

We would like to remind users of our yearly abstracts that we have been using different population estimation in our previous publications. We have used the new population estimation, which is considered to be a better estimation, as a base to calculate school-age population and thus enrolment and other essential indicators as well.

1.2. Average **population density**: 30/sq.km.

1.3. Total **school-age population** by school level (estimated percentage of the total population for the year 2007).

Age group	Population	Estimated % of total population
5-6	168,324	4.51
7-11	468,165	12.53
12-14	322,062	8.62
15-18	373,008	9.99

2. **Area of the country**: approximately **124,000 sq. km.**

3. School system

Level	Grade	Age
Pre-school	I, II	5-6
Elementary	1-5	7-11
Middle	6-8	12-14
Secondary	9-12	15-18

4. Gross Dependency Ratio: defined as percentage of the sum of all persons under 15 years and over 64 years divided by the number of persons age 15-64.

Age-group	Population	Dependency ratio	
0-5 years	661,269	32.92	Child dependency ratio
6-14 years	873,741	43.5	Young dependency ratio
65 years and above	192,019	9.56	Old dependency ratio

Total dependants (estimate)	1,727,029
Total non-dependants (estimate)	2,008,531
Gross Dependency Ratio	85.98

5. Definitions

5.1 Government schools are schools administered and financed by the Ministry of Education.

5.4 Number of schools by level:

A school having grades 1-11(12) is considered as three (1-5, 6-8, 9-12) schools by **level** regardless of being single **site**; another having grades 1-8 is considered as two schools as it contains two levels (1-5 and 6-8) and a school having grade 6-12 is considered as two (6-8 and 9-12) schools by level.
