I. Introduction and executive summary

1. Introduction

‘Eritrea: Basic Education Statistics is the official, annual education publication of the Ministry of Education (MoE) dealing with basic education statistics. It is the 16th report produced by the Department of Research and Human Resource Development in terms of organization of schools in the six administrative zobas, the Zobas. The sources of information for this publication are annual school censuses carried out by Zoba education offices through standard questionnaires.

This publication covers data from Early Childhood Education (ECE) and General Education (Elementary, Middle and Secondary level). The main purpose of the 2012/13 publication is to provide useful, relevant, reliable and up-to-date information on education for various stakeholders within and outside the education sector.

The MoE believes that the data presented in this publication is by no means considered exhaustive. For further inclusion and refinement to be made, the Ministry of Education is working to improve the quality and coverage of the education statistics. Moreover, continuous efforts will be made to produce better and timely information.

This publication would not have been possible without the contribution of the six Zoba education offices and other educational institutions. The department remains deeply indebted to all for the efforts made to successfully finalize this publication.

The MoE truly appreciates to all those who provided feedback and other relevant input.

Please feel free to give your serviceable feedback regarding the content and form of this education abstract so the department will be able to enrich this publication.

2. Executive summary

In the academic year 2012//13, enrolment in elementary level increased by 4.6 percent and the increase is observed all over the country. Enrolment in middle level decreased by 7.4 percent but enrolment in secondary level increased by 16 percent respectively as compared to previous academic year (2011/12). A decrease in enrolment in middle level is observed in all Zobas and an increase in enrolment in secondary level is observed in all zobas.

In the academic year of 2012/13, enrolment of girls in elementary and secondary levels increased by 5.1 and 18.1 percent respectively and in middle level decreased by 7.8 percent.

As compared to the academic year 2011/12, in the academic year 2012/13 national enrolment of girls and boys increased by 3 percent each. The participation ratio of girls is still lower than that of boys except in literacy programmes and continuing elementary education, which is 88.2 and 91.2 percent respectively. The gross enrolment ratios of females in pre-primary, elementary, middle and secondary levels were 24.9, 96.7, 64.3 and 30.0 percent respectively.

In pre-primary education, the number of students has increased by 1.1 percent and number of teachers has increased by 6 percent. The number of schools in pre-primary has increased by 2.8 percent. The number of schools by level in elementary, middle and secondary schools increased by 3.8, 7.9 and 8.7 percent respectively. The number of teachers in elementary, middle and secondary levels has increased by 6.3, 0.9 and 7.8 percent respectively.

The gross national accessibility to schooling in 2012/13 was about 24.8 percent, 102.5 percent, 69.5 percent and 34.1 percent in pre-primary, elementary, middle and secondary levels respectively.

The subsequent sections of this publication/abstract show the overall situation of the education system at all levels as well as some statistical information obtained since 1991.

3. Data channels

The information in this statistical abstract is gathered mainly from three questionnaires named number 7, 8 and 9. The first two questionnaires consist of closed questions/items, in which schools and institutions send back the *November data* on Pre-primary, Elementary, Middle, and Secondary schools to the MoE. The expected time of completion of these questionnaires is April. In every academic year normally 100% of the questionnaires are collected.

Item questionnaire 9 cover a school's physical, financial and internal efficiency particulars. The expected time of completion of this Questionnaire is July, which is after the end of each academic year.

The Department assure users of this abstract that all necessary measures have been taken to make the information provided in this issue valuable and reliable.

Data in all tables, unless otherwise stated, refer to the academic year 2012/13. Table numbers are sub-grouped under corresponding sections. Charts are sequenced in a continuous ascending order throughout the abstract.

II. Important notes

We would like to remind users of our yearly abstracts that we have been using different school age estimations in our previous publications. From now onwards our publications will be based on the new school age estimation made by the National Statistics Office (NSO) in 2012. Hence, it is to be expected that the values of the indicators to be affected.
