Addis Ababa: 4 April 2019

Ethiopian Airlines Aviation Group which is the largest and the most successful Aviation group in Africa, would like to acknowledge the preliminary report of the accident of ET 302/10 March, 2019 and would like to appreciate the hard work of the investigation team.

The preliminary report clearly showed that the Ethiopian Airlines Pilots who were commanding Flight ET 302/10 March have followed the Boeing recommended and FAA approved emergency procedures to handle the most difficult emergency situation created on the airplane. Despite their hard work and full compliance with the emergency procedures, it was very unfortunate that they could not recover the airplane from the persistence of nose diving. As the investigation continues with more detailed analysis, as usual we will continue with our full cooperation with the investigation team.

Group CEO, Tewolde GebreMariam said that “ All of us at Ethiopian Airlines are still going through deep mourning for the loss of our loved ones and we would like to express our deep sympathy and condolences for the families, relatives and friends of the victims. Meanwhile; we are very proud of our pilots’ compliances to follow the emergency procedures and high level of professional performances in such extremely difficult situations. We are also very proud of our Global standard Pilot Training Center and the Ethiopian Aviation Academy which is one of the largest and most modern in the world equipped with state of the art and latest training technologies .
