Assena Radio/Tv are quasi terrorists.

For years Asena Radio/TV. has been pretending as if they care about Eritrean land and its people. The current travel of President Isaias to Ethiopia for a workshop or tour under the invitation of the Prime Minister of Ethiopia Dr. Abiy Ahmed, the Asena group immediately condemned it and concurrently they proved to us that they are not only Agitators but would also be quasi Terrorists who wants to see Eritrea destroyed. They are about bringing fear and inner strife that cause self-doubt and infighting. This is not a new kind of war upon us but it looks very dangerous this time than before. They are attempting to divide us and eat away at our morale, unity and sovereignty.

The Eritrea's Detractors or Agitators have realized a fundamental truth is happening that the Woyane's can't occupy Eritrea's land anymore. Therefore, the president senses an urgent action is needed that the Woyane must vacate Eritrea's sovereign territory immediately. We Eritreans also we will unite, mobilize and will come out to show our unity of strength for fighting not only to survive but to win. The Woyane must understand that if they don't leave our occupied land which is the sooner is the better, they can face onslaught attack. This time the world sees the Woyane as terrorists occupying another nation's sovereign territory. It has already started the economic shut down in some parts and some programs of Tigray due to the outlawed actions of the Woyane.

Under these conditions the Agitators spokes person an owner of Asena Radio/Tv. is expressing his emotions in an upset manner and attack the nationalistic Eritreans who are the masses and the Eritrean Government views and beliefs by calling every Eritrean from the young age to the seniors that the president is planning to put Eritrea into war. this would have cause a political

and economic catastrophe to Eritrea as well as causing the overall society will be driven into social shaming and confusions.

He chose to address his attack in a forceful unhealthy manner he even questioned why President Isaias has been meeting Abiy Ahmed frequently.

Asena TV. Influence

The Agitators direct demand is: Isaias **“HANDS OFF ETHIOPIA AND DON”T BRING ERITREA INTO WAR”**. These angry threats from Asena Tv. is neither a political campaign nor ideological platforms. What they are doing now is they are clearly proving themselves that they are quasi terrorists who supports the outlawed Woyane who leads and represents the Tigray region.
