

COLLEGIATE PROGRESSIVE ERITREANS FROM ABROAD ARE MISLEADING THEMSELVES

By: Yemane Tsegay
[September 1/2020]

I. Introduction.

On August 29, 2020 a video released on a facebook by Fanus Amanue (made by KINE MASTER) an attack on the state of Eritrea by two individuals shown in Fig. 1 below in which their responses have an element of progressives executed in a questions and answers format. Everything coming out from these two individuals namely (a) the lady's name is Haikel Negash and (b) the young man's name is: Samuel Emha were misleading and not well thought-out. Both have made official negative statements about Sawa leading to the criticism up to a boycott against eliminating that institution which the progressives have been trying to get rid of it for many years. For example the notorious Bereket Habtessellassie an advocate for progressives once said: Sawa is an "open prison". For further reading press the link: <https://www.youtube.com/watch?v=ztgsNcspUik> Haikel and Samuel have presented themselves in a video to make statements as follows:

(a) Haikel said: taking young boys and girls away from their families to Sawa have a profound effects of family crises and family disintegration. She emphatically said with her full mouth that it is the beginning point of Eritrean family destructions and must be stopped. This lady doesn't seem to have any clue that she is highly confused about family destructions when the scenario is about the concern of well being of babies and children less than 5 years old when they need affections and constant communications from their immediate families as opposed going to Sawa who are boys and girls sent at their early adulthood 18 years and older. Sawa is not designed for child developmental skills where parenting engagements are necessary. It is designed for young adults facing a transition from childhood into adulthood after they finish the 11th grade.

According to their opinion they are on the way to advocate for the boycott of the entire Sawa

programs that should be stopped and eliminated.

(b) Samuel Emha, after he was asked to elaborate his efforts toward the negative effects of Sawa's institution he said that: These practices which he didn't disclosed the detailed negative impacts but, he mentioned that the government accountability and abuse which sounds (human rights abuse) needs to counter the government's efforts and he is willing to dedicate himself in "Counter Documenting". Here he goes again, It sounds like the Eritrean Government is engaging in student abuses a typical human rights violations that Samuel wants to establish counter documenting against the government accountability for those victims. His effort can be interpreted that he is willing to become an instrument for the opportunists who are enemies of Eritrea who wants to take over the government with an excuse of lack of good governance and human rights abuse. I wonder if this young guy ever know what he is doing? He is engaging in counterproductive to the national state building programs with its all developmental projects.

II. The impact of Foreign Inspired Ideology Results on Self inflicted pain

Both of these individuals Haikel Negash and Samuel Emha are exhibiting classic collegiate from abroad academic reasoning that only following and using the Global Progressive Ideology which by nature strips away one's the national cultural pride and forces the user (followers) to adopt self destructing anti social behaviors that results in misleading **themselves** and the general public into following an ideology that is supposedly based on human rights; but hidden in reality replacing the **heterosexual** family lifestyles with the homosexual family life styles; which happens to be not only a form of mental illness but that is guaranteed not to be able to engage in pro creation for future Eritrean children. This is the exact opposite against any sick ideology why and how the Government of Eritrea designed Sawa programs to benefit Eritrean youths. It was designed, to teach Eritrean youths from the age of 18 years and up and teach the students to learn a multitude of things such as: national, cultural, prides, from historical views how to behave in society it teaches their obligations to the national Eritrean society as well as teaching them family values skills which are real long life technical abilities that they can use at home or abroad. These will encourage them that they will be responsible in pro creation for future Eritrean children.

When the two individuals advocates for anti Sawa teachings with the goal of replacing it with the progressive institution they are preferring to promote LGBTQ life styles. I don't think they know what they are into. Suppose these two guys are allowed to redesign the Sawa curriculum they will write in the progressive ideology which embraces and even fevers at its core of that

curriculum is the LGBTQ pride and life styles which incidentally eradicates the Eritrean family structure all together which happens to be what they are talking about at the beginning of their video (facebook by Fanus Amanuel made by KINE MASTER on August 29,2020). Therefore, it is not the Eritrean Government and Sawa that will destroy the Eritrean family but instead it will be these two abroad collegiate progressive ideology that will finally destroy the Eritrean family.

These two individuals, they seem very excited to follow the human rights agenda of the progressives which they don't know where they are heading. The progressives will never disclose to them up front that Human Rights are Gay Rights Hillary Clinton declares on December 2011 which is obviously, is more detrimental for spreading and infecting the public with the AIDS virus and other STD diseases and as well as not producing children in Eritrea. From this assertions we can deduce that Sawa program is pro heterosexual which is a counter to them both supposedly progressive advocates against the Sawa programs and the Eritrean Government at large. These two individuals also must understand that within the progressive ideology it contains the counter measures against their homelands educational and cultural systems. But, because they lack legality, they are unaware that gathering, documenting and submitting on line in video format that one day will be used against their own country' This is called espionage against the Eritrean Governnt which will lands you in prison for many years. If they had some legal training they would have been aware that their counter documented information would eventually be used against their country's governing system in a future ICC. Court case.

III. Who is Accountable for the human rights of victims?

In essence, they will do the dirty job translating and documenting for their Progressive Handlers. What these two individuals in particular, Samuel Emha, he is caught in a criminal complex activities which are designed to steal the wealth of mineral resources of Eritrea such as: gold, nickel, potash, oil of Eritrea, as well as injecting the sickest part of the ideology into the Eritrean society practicing the LGBTQ life styles. That is why that component is the most important part of that ideology which ensures the destruction of a society once it begins engages in that activities. That is the main reason they must hide and never gave up that part of the ideology along with their marijuana for recreation or medication.

Just for these two guys and others who may be involved in these criminal activities the new Eritrean Nationalistic Movement is documenting everything they are doing so that in the future when they ask to participate in the Eritrean society for whatever service to become future politicians or someone who wants to write the future academic curriculum for children each of

them based on their past works and will be denied because of their progressive involvements.

IV. Summary

The enemies of Eritrea who are the progressively indoctrinate, they always use a multipronged attack. When they designed to overthrow a government and replace it with its own progressive ideologically driven, the first step they follow is they train, develop and make sure that their ideology is well received, adopted and practiced by the people who speaks, writes, communicates well of that targeted country from within the people in that nation. They also introduce people as trainers to having engaged in the usage of marijuana first to open the mind to allow the LGBTQ life style in. The third step will move into gay relationships and finally that type of life style will begin to create public health crises due to the high rates of AIDS infection in the Eritrean society.

Figure 1.

Haikel Negash and Samuel Emha

These are the young Eritreans who don't know what they are doing Just for your information. Stop what you are intending to do you will find yourself guilty of Espionage of a Class 4 serious offense punishable with a definite term of imprisonment of not less than 13 years and not more than 16 years. Art. 114 –Espionage. PENAL CODE OF THE STATE OF ERITREA 2015
